Issue 67

July 7, 2006

Happy New fiscal Year

Web Report Review

RDMC is requesting that Centers review the reports on the Web that you use and let Dennis Moore (dennis.moore@rdmc.org) know if there are any that you believe are no longer needed and indicate which ones should absolute be kept. We are conducting a review of all the reports and need to know which are useful and which have no value.

Taxonomy Codes

RDMC has received updates to several Taxonomy codes, mostly adding descriptions when no description was available. The Taxonomy table is being updated and current reports are available at http://mhmr.ky.gov/cmhc/cmhc_data_guide.asp as updates are completed.

JCIC

The next JCIC meeting is scheduled for July 19, 2006. Among the subjects to be covered will be the NOMs / SOMMS meeting of 6/29 and the results. Additional data will need to be collected for Substance Abuse clients in order to meet the SAMHSA requirements which has a direct impact on Federal Block Grant requirements.

BPRS on PDAs - Update

All Adult CSU sites have been trained on the submission of BPRS forms via PDAs. The submissions using the PDAs will be quicker and more accurate. Considering the cost of the forms and the costs of mailing, the PDAs are actually less expensive.

Kentucky County Quiz!

For fun, see if you can answer the following questions with Kentucky county names (answers next issue)
